

Execution of special geotechnical works — Diaphragm walls

The European Standard EN 1538:2000 has the status of a
British Standard

ICS 93.020

English version

Execution of special geotechnical works – Diaphragm walls

Exécution de travaux géotechniques spéciaux – Parois
moulées

Ausführung von besonderen geotechnischer Arbeiten
(Spezialtiefbau) - Schiltzwände

This European Standard was approved by CEN on 1 June 1997.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
